### TurboBlend Three Speed

The TurboBlend Three Speed is back in stock on Vitamix.com and is available in Black. Starting at \$399.95.

The FoodCycler is made by Food Cycle Science, but is distributed by Vitamix. This product embodies the ideals of our brand and we are proud to support it! The FoodCycler is a compact, countertop food waste recycler which transforms food waste into a nutrient rich soil amendment. This soil amendment is similar to compost, except it goes through a heating and grinding process to eliminate methane gasses produced along with odors within 8 hours or less. The FoodCycler can grind fruit, veggies, dairy, meat, and even some bones! The end process is a dirt- and mulch-like soil amendment reducing food waste by 90%.

As our customer base uses whole and natural foods regularly, this will encourage them to get an item like the FoodCycler. It also is a great tool for those who grow their own food. Plus, the FoodCycler is the perfect tool for those wanting to start their own gardens!

The FoodCycler will be available at \$299.95 US / \$349.95 CA and the FoodCycler Filters (set of 2) \$24.95 US / \$299.95 CA.
